## Goods Clearance that's better for you

The ASYCUDA World suite of services brings an abundance of benefits to the government and trade sector stakeholders of the countries in which it has already been introduced.

This system promotes and supports the application to modern cargo processing and release principles that all Customs Administrations would target.

It has proven to be a Customs clearance tool that ensures full trader compliance, transparent examination practices and other controls.

The system is designed to offer value to all front end and back end users, for ease of reporting and doing business for carriers, agents and importers to a more secure basis for the generation and dissemination of statistical data.

Approved users of the ASYCUDA World System can access information from anywhere in the world as the service works on desktops, laptops and all smart devices that have a reliable internet connection.

ASYCUDA brings an end to lost and misplaced documents that would have been submitted. Every transaction can be monitored by the importer unto its satisfactory completion.

ASYCUDA World is for you and your business. Please feel free to contact us.

### BENEFITS FOR THE TRADER

- ◆ Paperless - Going green is a sign of social and environmental responsibility. ASYCUDA World helps to reduce paper consumption through 100% generation of documentation and data.
- ◆ Consistency - Authorized users will have a single document from which to work in each instance. Information changes will be instantly accessible to all authorized users.
- ◆ Accountability - All activities carried out on the system will be recorded such that the time and date of all data input will be stored for future reference as well as the name of the authorized user who had input or modify data.
- ◆ Faster Clearance Times - Your goods processed through Customs and delivered to you more quickly.
- ◆ Direct Trader Input - This gives the trader the flexibility to submit documents at any time of the day and not just during traditional working hours.

### BENEFITS FOR THE GOVERNMENT

- ◆ Increased in Revenue Collection at Customs through improved import procedures
- ◆ Real-time Statistics - Customs and the ports authorities will have a more secure online access to real-time information on cargo received, cargo released and current cargo inventory
- ◆ Improvement in Trade Facilitation - easier movement of goods through our ports strengthens the trading capabilities of the nation.
- ◆ Greater Risk Management Capabilities - selection of the risk of every transaction allows for controls that ensure compliance.
- ◆ Systems Integration with other Government Systems - Customs will be directly linked to other agencies such as trade and statistics departments. Through the single window portal there is access to licensing agencies.

### ASYCUDA WORLD

Works on all your smart devices.  
Anytime. Anywhere.
