

SCHEDULE I

**LIST OF CONDITIONS TO BE COMPLIED WITH AS
PROVIDED UNDER ARTICLE 84 OF THE REVISED
TREATY AND THE RULES REGARDING
COMMUNITY ORIGIN**

Caribbean Community Secretariat

13 May 2006

THE TREATY ESTABLISHING THE CARIBBEAN COMMUNITY

ARTICLE 84

Community Rules of Origin

1. Subject to the provisions of this Article, goods that have been consigned from one Member State to a consignee in another Member State shall be treated as being of Community origin, where the goods:
 - a. have been wholly produced within the Community; or
 - b. have been produced within the Community wholly or partly from materials imported from outside the Community or from materials of undetermined origin by a process which effects a substantial transformation characterised:
 - i. by the goods being classified in a tariff heading different from that in which any of those materials is classified; or
 - ii. in the case of the goods set out in the List in Schedule I to this Treaty (hereinafter referred to as “the List”), only by satisfying the conditions therefor specified.
2. Goods that have been consigned from one Member State to a consignee in another Member State for repair, renovation or improvement shall, on their return to the Member State from which they were exported, be treated for the purpose of re-importation only, in like manner as goods which are of Community origin, provided that the goods are reconsigned directly to that Member State from which they were exported and the value of materials imported from outside the Community or of undetermined origin which have been used in the process of repair, renovation or improvement does not exceed:

- a. in the case where the goods have undergone the process of repair, renovation or improvement in a More Developed Country, 65 per cent of the cost of repair, renovation or improvement;
 - b. in the case where the goods have undergone the process of repair, renovation or improvement in a Less Developed Country, 80 per cent of the cost of repair, renovation or improvement.
3. Where there is an interruption or inadequacy of supplies of regional materials and the manufacturer of goods, for which the qualifying condition for Community origin is that of “wholly produced” or “produced from regional materials”, is unable by reason of circumstances beyond his control to obtain supplies of the regional materials, he shall so inform the competent authority.
4. The Competent Authority shall:
 - a. after receipt of information from the manufacturer, cause investigations to be made into the matter, and if he is satisfied that the representation from the manufacturer is justified, submit to the Secretary-General in the prescribed instrument an application for a certificate provided for in this Article;
 - b. at the time of making the application, inform the other Member States of the inability of the manufacturer to obtain the supplies of the required materials from within the Community with respect to quantities and specifications of the materials sought and the period during which the materials are required.
5. The Secretary-General shall, on receipt of the application from the competent authority:
 - a. forthwith make the relevant enquiries by the quickest possible means from the competent authorities in the other Member States as to their ability to supply the materials required by the manufacturer; and
 - b. request a reply to the enquiry from each competent authority within seven calendar days of the despatch of his enquiry.

6. A competent authority shall reply to the enquiry referred to in paragraph 5 within the time specified.
7. Where the Secretary-General, on the basis of his investigations, is satisfied that the application received from the competent authority justifies favourable consideration, he shall, notwithstanding that he may not have received a reply to his enquiry from one or more Member States, within fourteen calendar days after the receipt of the application from the competent authority, issue, on behalf of COTED, a certificate to the competent authority authorising the use of like materials from outside the Community, subject to such conditions as he may think fit to impose.
8. The Secretary-General shall inform the Member States of the issue of his certificate, including any conditions attaching thereto and that notwithstanding anything to the contrary in the provisions of this Article, goods manufactured from like materials imported from outside the Community shall be deemed to be of Community origin.
9. A Member State may treat as of Community origin any imports consigned from another Member State, provided that the like imports consigned from any other Member State are accorded the same treatment. Member States concerned shall promptly inform COTED of any trading arrangements concluded pursuant to this paragraph and COTED may, as it thinks fit, recommend to the Member States concerned the adoption of alternative trading arrangements.
10. The provisions of Schedule I shall apply to and have effect for the purposes of this Article. COTED shall keep the Schedule and, in particular, the List under continuous review, and may amend the Schedule in order to ensure the achievement of the objectives of the Community.
11. The issue of a certificate in accordance with paragraph 7 shall be reported by the Secretary-General to COTED at the Meeting of COTED next following the date of issue thereof.

SCHEDULE I

LIST OF CONDITIONS TO BE COMPLIED WITH AS PROVIDED UNDER ARTICLE 84 OF THE ANNEX TO THE TREATY AND THE RULES REGARDING COMMUNITY ORIGIN

This Schedule consists of –

- (a) the List comprising goods referred to in sub-paragraph (b) (ii) of paragraph 1 of Article 84 of the Treaty;
- (b) the Rules regarding Community origin.

(a) THE LIST

The application of the List is governed by the following general notes:

- (i) In this List, where a tariff heading is preceded by the word “ex”, only those products of that heading specified in the column headed “Product” are referred to. Descriptions of finished products and of materials are to be interpreted according to the relative Section and Chapter Notes of the Harmonised Commodity Description and Coding System (HS) and the General Rules for the Interpretation of the Harmonised System.
- (ii) Four figure references of the type “04.02”, “17.04”, etc., are references to the headings of the Harmonised Commodity Description and Coding System (HS).
- (iii) Where the condition to be complied with for any product does not prescribe the use of regional materials, it shall always be understood that materials imported from outside the Community or of undetermined origin may be used. If such materials are used in a more advanced state of processing than that specified in the List, the finished product shall be ineligible for Community treatment.

84.37	Machines for cleaning, sorting or grading seed, grain or dried leguminous vegetables; machinery used in the milling industry or for the working of cereals or dried leguminous vegetables, other than farm-type machinery	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.38	Machinery, not specified or included elsewhere in this Chapter, for the industrial preparation or manufacture of food or drink, other than machinery for the extraction or preparation of animal or fixed vegetable fats or oils	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.39	Machinery for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.40	Book-binding machinery, including book-sewing machines	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.41	Other machinery for making up paper pulp, paper or paperboard, including cutting machines of all kinds	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.42	Machinery, apparatus and equipment (other than the machine-tools of headings 84.56 to 84.65) for preparing or making plates, cylinders and other printing components; plates, cylinders and other printing components; plates, cylinders and lithographic stones, prepared for printing purposes (for example, planed, grained or polished)	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

84.48	Auxiliary machinery for use with machines of heading 84.44, 84.45, 84.46 or 84.47 (for example, dobbies, Jacquards, automatic stop motions, shuttle changing mechanisms); parts and accessories suitable for use solely or principally with the machines of this heading or of heading 84.44, 84.45, 84.46 or 84.47 (for example, spindles and spindle flyers, card clothing, combs, extruding nipples, shuttles, healds and heald-frames, hosiery needles)	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.49	Machinery for the manufacture or finishing of felt or non-wovens in the piece or in shapes, including machinery for making felt hats; blocks for making hats	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.50	Household or laundry-type washing machines, including machines which both wash and dry	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.51	Machinery (other than machines of heading 84.50) for washing, cleaning, wringing, drying, ironing, pressing (including fusing presses), bleaching, dyeing, dressing, finishing, coating or impregnating textile yarns, fabrics or made up textile articles and machines for applying the paste to the base fabric or other support used in the manufacture of floor coverings such as linoleum; machines for reeling, unreeling, folding, cutting or pinking textile fabrics.	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.52	Sewing machines, other than book-sewing machines of heading 84.40; furniture, bases and covers specially designed for sewing machines; sewing machine needles	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

84.53	Machinery for preparing, tanning or working hides, skins or leather or for making or repairing footwear or other articles of hides, skins or leather, other than sewing machines	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.54	Converters, ladles, ingot moulds and casting machines, of a kind used in metallurgy or in metal foundries	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.55	Metal-rolling mills and rolls therefor	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.56	Machine-tools for working any material by removal of material, by laser or other light or photon beam, ultrasonic, electro-discharge, electro-chemical, electron beam, ionic-beam or plasma arc processes	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.57	Machining centers, unit construction machines (single station) and multi-station transfer machines, for working metal	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.58	Lathes (including turning centers) for removing metal	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.59	Machine-tools (including way-type unit head machines) for drilling, boring, milling, threading or tapping by removing metal, other than lathes (including turning centers) of heading 84.58	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

84.60	Machine tools for deburring, sharpening, grinding, honing, lapping, polishing or otherwise finishing metal, or cermets by means of grinding stones, abrasives or polishing products other than gear cutting, gear grinding or gear finishing machines of heading 84.61	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.61	Machine-tools for planing, shaping, slotting, broaching, gear cutting, gear grinding or gear finishing, sawing, cutting-off and other machine-tools working by removing metal or cermets, not elsewhere specified or included	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.62	Machine-tools (including presses) for working metal by forging, hammering or die-stamping; machine-tools (including presses) for working metal by bending, folding, straightening, flattening, shearing, punching or notching; presses for working metal or metal carbides, not specified above	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.63	Other machine-tools for working metal or cermets, without removing material	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.64	Machine-tools for working stone, ceramics, concrete, asbestos-cement or like mineral materials or for cold working glass	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.65	Machine-tools (including machines for nailing, stapling, glueing or otherwise assembling) for working wood, cork, bone, hard rubber, hard plastics or similar hard materials	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

84.66	Parts and accessories suitable for use solely or principally with the machines of headings 84.56 to 84.65, including work or tool holders, self-opening dieheads, dividing heads and other special attachments for machine-tools; tool holders for any type of tool for working in the hand.	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.67	Tools for working in the hand, pneumatic, hydraulic or with self-contained non-electric motor	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.68	Machinery and apparatus for soldering, brazing or welding, whether or not capable of cutting, other than those of heading 85.15; gas-operated surface tempering machines and appliances	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.69	Typewriters other than printers of heading 84.43; word processing machines	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.70	Calculating machines and pocket-size data recording, reproducing and displaying machines with calculating functions; accounting machines, postage-franking machines, ticket-issuing machines and similar machines, incorporating a calculating device; cash registers	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
ex 84.71	Digital automatic data processing machines, comprising in the same housing at least a central processing unit and an input and output unit, whether or not combined	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

ex 84.71	Automatic data processing machines and units thereof; magnetic or optical readers, machines for transcribing data on to data media in coded form and machines for processing such data, not elsewhere specified or included (excluding digital automatic data processing machines, comprising in the same housing at least a central processing unit and an input and output unit, whether or not combined)	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.72	Other office machines (for example, hectograph or stencil duplicating machines, addressing machines, automatic bank-note dispensers, coin-sorting machines, coin-counting or wrapping machines, pencil sharpening machines, perforating or stapling machines)	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.73	Parts and accessories (other than covers, carrying cases and the like) suitable for use solely or principally with machines of headings 84.69 to 84.72	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.74	Machinery for sorting, screening, separating, washing, crushing, grinding, mixing or kneading earth, stone, ores or other mineral substances, in solid (including powder or paste) form; machinery for agglomerating, shaping or moulding solid mineral fuels, ceramic paste, unhardened cements, plastering materials or other mineral products in powder or paste form; machines for forming foundry moulds of sand.	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.75	Machines for assembling electric or electronic lamps, tubes or valves or flashbulbs, in glass envelopes; machines for manufacturing or hot working glass or glassware	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

84.76	Automatic goods-vending machines (for example, postage stamp, cigarette, food or beverage machines), including money-changing machines	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.77	Machinery for working rubber or plastics or for the manufacture of products from these materials, not specified or included elsewhere in this Chapter	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.78	Machinery for preparing or making up tobacco, not specified or included elsewhere in this Chapter	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.79	Machines and mechanical appliances having individual functions, not specified or included elsewhere in this Chapter	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
ex 84.80	Moulding boxes for metal foundry; mould bases; moulding patterns; moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials or rubber	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.81	Taps, cocks, valves and similar appliances for pipes, boiler shells, tanks, vats or the like, including pressure-reducing valves and thermostatically controlled valves	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product
84.82	Ball or roller bearings	Production in which the value of extra-regional materials used does not exceed 50 percent of the export price of the finished product	Production in which the value of extra-regional materials used does not exceed 60 percent of the export price of the finished product

(b) RULES REGARDING COMMUNITY ORIGIN

For the purpose of determining the origin of goods under Article 84 of the Treaty and for the application of that Article and the List, the following Rules shall be applied.

RULE 1 - Interpretative Provisions

1. In determining the place of production of marine products and goods produced therefrom, a vessel of a Member State shall be regarded as part of that State. In determining the place from which goods have been consigned, marine products taken from the sea or goods produced therefrom at sea shall be regarded as having been consigned from a Member State if they were taken by or produced in a vessel of a Member State and have been brought direct to the Community.
2. For the purpose of these Rules a vessel shall be treated as a vessel of a Member State only if –
 - (a) it is registered in a Member State;
 - (b) it carries a complement (inclusive of the Master thereof) of which not less than three-fourths are nationals of Member States; and
 - (c) it is majority owned and operated by –
 - (i) nationals of Member States, or
 - (ii) a Government of a Member State, or
 - (iii) a statutory Corporation of a Member State

In this paragraph nationals of Member States shall have the same meaning as in paragraph 5 of Article 32 of this Treaty.

3. "Materials" includes raw materials, intermediate products, parts and components used in the process of production, repair, renovation or improvement of the goods.

4. Energy, fuel, plant, machinery and tools used in the production, repair, renovation or improvement of goods within the Community and materials used in the maintenance of such plant, machinery and tools, shall be regarded as wholly produced within the Community when determining the origin of these goods.

5. Goods other than those to which paragraph 1 of Rule 2 of these Rules applies shall not be treated as being of Community origin if they are produced by any operation or process which consists only of one or more of the following, whether or not there is a change of tariff heading –
 - (a) operations to ensure the preservation of goods during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solution, removal of damaged parts, and like operations);
 - (b) simple operations consisting of removal of dust, sifting or screening, sorting, grading, classifying, matching (including the making up of sets of articles), washing, painting and cutting up resulting in the mere reduction in size;
 - (c)
 - (i) changes of packing;
 - (ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards and other simple packing operations;
 - (d) affixing marks, labels or other like distinguishing signs on goods or their packaging;
 - (e) simple mixing of materials imported from outside the Community or of undetermined origin if the characteristics of the goods as a whole are not essentially different from the characteristics of the materials which have been mixed;
 - (f) operations which consist solely of welding, soldering, fastening, riveting, bolting and like operations, or otherwise putting together of all finished parts or components to constitute a finished product.

6. "Chapter" and "tariff heading" in article 84 or in this Schedule shall mean the Chapters and headings of the Harmonised Commodity Description and Coding System.
7. For the purpose of sub-paragraph (f) of paragraph 5, the expression "finished parts or components" refers to those articles which are imported into the Community in a form or condition which does not require any further fabrication, change in shape or form, resulting in a change in identity or use or the application of permanent protective/decorative coating for the purposes of incorporation in the finished product.
8. Paragraphs 5(f) and 7 in this Rule shall take effect one year after the entry into force of the amendment of this Schedule, pursuant to the decision of the Council at its Special Meeting in July 1990.

RULE 2 - Goods wholly produced within the Community

1. The expression "wholly produced" when used with reference to goods means:
 - (a) mineral products extracted from the ground within the Community;
 - (b) vegetable products harvested within the Community;
 - (c) live animals born and raised within the Community;
 - (d) products obtained within the Community from live animals;
 - (e) products obtained by hunting or fishing conducted within the Community;
 - (f) marine products taken from the sea by a vessel of a Member State;
 - (g) goods produced within the Community exclusively from one or both of the following -
 - (i) goods referred to in sub-paragraphs (a) to (f) and (h) and (i) of this paragraph;
 - (ii) goods containing no materials imported from outside the Community or of undetermined origin, or containing those materials but which would not be regarded as such under paragraph 1 of Rule 3;

and shall be taken to include –

- (h) used articles fit only for the recovery of materials provided that they have been collected from users within the Community;
 - (i) scrap and waste resulting from manufacturing operations within the Community.
2. Wherever in paragraph 1 of Article 84 of this Treaty goods are required to be wholly produced, the use of small quantities of preservatives, vitamins, colouring and similar materials imported from outside the Community or of undetermined origin shall not affect their eligibility for Community treatment as wholly produced.

RULE 3 - Application of the criterion of substantial transformation

1. Where materials containing any element imported from outside the Community meet the conditions specified in Article 84, those materials shall be regarded as containing no such element.
2. For the purpose of Article 84 -
 - (i) The value of any materials imported from outside the Community shall be the customs value determined for them by the Customs Authority in the Member State where they were used in a process of production, less the amount of any transport costs incurred in transit through other Member States;
 - (ii) if the origin of any materials cannot be determined, such materials shall be deemed to have been imported from outside the Community;
 - (iii) the export price of the goods shall be the value accepted for this purpose by the Customs Authority in the Member State in which they were produced. It shall be based, *mutatis mutandis*, on the provision set out in sub-paragraph (i), but shall not include the amounts of transport and insurance costs incurred after the exportation of the goods.
3. In the application of the List the conditions to be complied with other than a percentage value-added condition applicable to any goods shall be fulfilled in respect of the whole of the goods, excluding any packing.
4. The expressions appearing in the columns headed "conditions to be complied with" in the List and set out below shall be applied in the following manner:

- (i) "produced from regional materials of" - the materials falling within the tariff headings or Chapters named may be used only if they qualify to be treated as of Community origin within the meaning of Article 84. This does not preclude the use of regional materials in an earlier stage of production;
- (ii) "produced from materials of" and "produced from" - the materials named or designated as the case may be must be used in the condition in which they are described. This does not preclude the use of the materials in an earlier stage of production;
- (iii) "produced from materials not included in" - the materials which fall in the tariff headings named may not be used if they are imported from outside the Community or are of undetermined origin;
- (iv) "extraregional materials" shall mean materials imported from outside the Community or of undetermined origin;
- (v) "chemical transformation" shall mean the forming of the molecule of the finished product by –
 - (a) the combination of two or more elements; or
 - (b) any modification of the structure of the molecule of a compound with the exception of ionisation and the addition or removal of water of crystallisation.

RULE 4 - Unit of Qualification

1. Each article in a consignment shall be considered separately.
2. For the purposes of paragraph 1 of this Rule -
 - (a) where the Harmonised Commodity Description and Coding System specifies that a group, set or assembly of articles is to be classified within a single heading, such a group, set or assembly shall be treated as one article;
 - (b) tools, parts and accessories which are imported with an article, and the price of which is included in that of the article or for which no separate charge is made, shall be considered as forming a whole with the article, provided that they constitute the standard equipment customarily included on the sale of articles of that kind;

- (c) in cases not within sub-paragraphs (a) and (b), goods shall be treated as a single article if they are so treated for purposes of assessing Customs duties by the importing Member State.
3. An unassembled or disassembled article which is imported in more than one consignment because it is not feasible for transport or production reasons to import it in a single consignment shall, if the importer so requests, be treated as one article.

RULE 5 - Segregation of materials

1. For those products or industries where it would be impracticable for the producer physically to segregate materials of similar character but different origin used in the production of goods, such segregation may be replaced by an appropriate accounting system, which ensures that no more goods received Community tariff treatment, than would have been the case, if the producer had been able physically to segregate the materials.
2. Any such accounting system shall conform to such conditions as may be agreed upon by Member States concerned in order to ensure that adequate control measures will be applied.

RULE 6 - Treatment of repaired goods

1. For the purposes of paragraph 4 of Article 84 goods shall be treated as having undergone a process of repair, renovation or improvement if the performance of such process within the Community does not result in a change of the form or character of the goods.
2. The cost of repair, renovation or improvement shall refer to the cost of all materials which are used plus the costs involved in effecting the repair, renovation or improvement, excluding freight, other transport charges, insurance and other shipping costs.

RULE 7 - Treatment of Packing

1. Where for purposes of assessing Customs duties a Member State treats goods separately from their packing, it may also, in respect of its imports consigned from another Member State, determine separately the origin or such packing.

2. Where paragraph 1 of this Rule is not applied, packing of any sort shall be considered as forming a whole with the goods for the purposes only of the application of the percentage value-added conditions. No part of any packing required for the transport or storage of goods shall be considered as having been imported from outside the Community when determining the origin of the goods as a whole.

RULE 8 - Documentary Evidence

1. A claim that goods shall be accepted as eligible for Community tariff treatment shall be supported by appropriate documentary evidence of origin and consignment. The evidence of origin shall consist of a certificate given by a Governmental authority or authorised body nominated by the exporting Member State and notified to the other Member States together with a declaration completed by the exporter of the goods.
2. The governmental authority or the authorised body shall obtain a declaration as to the origin of the goods given by the last producer of the goods within the Community. The authority or body shall satisfy themselves as to the accuracy of the evidence provided; where necessary they shall require the production of additional information, and shall carry out any suitable check. If the authorities of the importing Member State so require, a confidential indication of the producer of the goods shall be given.
3. Nominations of authorised bodies for the purpose of this Rule may be withdrawn by the exporting Member State if the need arises. Each Member State shall retain, in regard to its imports, the right of refusing to accept certificates from any authorised body which is shown to have repeatedly issued certificates in an improper manner, but such action shall not be taken without adequate prior notification to the exporting Member State of the grounds for dissatisfaction.
4. In cases where the Member States concerned recognise that it is impracticable for the producer to make the declaration of origin specified in paragraph 2 of this Rule, the exporter may make that declaration in such form as those Member States may for the purpose specify.
5. The certificate and declaration provided for in this Rule shall be in the form prescribed by COTED from time to time.
6. COTED may decide that further or different provisions concerning evidence of origin or of consignment shall apply to particular categories of goods or classes or transactions.

RULE 9 - Verification of Evidence of Origin

1. The importing Member State may as necessary require further evidence to support any declaration or certificate of origin furnished under Rule 8.
2. The importing Member State shall not prevent the importer from taking delivery of the goods solely on the grounds that it requires such further evidence, but may require security for any duty or other charge which may be payable; provided that where goods are subject to any import restrictions or prohibitions, the stipulation for delivery under security shall not apply.
3. Where, under paragraph 1 of this Rule, a Member State has required further evidence to be furnished, those concerned in another Member State shall be free to produce it to a governmental authority or an authorised body of the latter State, who shall, after thorough verification of the evidence, furnish an appropriate report to the importing Member State.
4. Where it is necessary to do so by reason of its legislation, a Member State may prescribe that requests by the authorities of importing Member States for further evidence from those concerned in the Member State shall be addressed to a specified governmental authority, who shall after thorough verification of the evidence furnish an appropriate report to the importing Member State.
5. If the importing Member State wishes an investigation to be made into the accuracy of the evidence which it has received it may make a request to that effect to the other Member State or States concerned.
6. Information obtained under the provisions of this Rule by the importing Member State shall be treated as confidential.

RULE 10 - Application of the Safeguard Mechanism

1. The information required pursuant to paragraph 4 of Article 84 shall be rendered in writing and shall be such as the Competent Authority may require.
2. For the purposes of carrying out his investigations, the Secretary-General may seek such additional information as he considers to be relevant. Replies to the enquiries by the Secretary-General should be sent by telex, telefax or other similar means of communication.

3. The Competent Authority shall ensure that no more extraregional materials are used in production for purposes of Community treatment than are authorised by the Secretary-General. The Competent Authority shall make available to the Governmental authority or authorised body nominated for his State under paragraph 1 of Rule 8 such information as may be necessary for this purpose.
4. The Member States agree to cooperate fully with the Secretary-General in the foregoing provisions of this Rule.

RULE 11 – Sanctions

1. Member States undertake to introduce legislation, making such provision as may be necessary for penalties against persons who, in their State, furnish or cause to be furnished a document which is untrue in a material particular in support of a claim in another Member State that goods should be accepted as eligible for Community tariff treatment. The penalties applicable shall be similar to those applicable in case of untrue declarations in regard to payment of duty on imports.
2. A Member State may deal with the offence out of court, if it can be more appropriately dealt with by a compromise penalty or similar administrative procedure.
3. A Member State shall be under no obligation to institute or continue court proceedings, or action under paragraph 2 of this Rule:
 - (a) if it has not been requested to do so by the importing Member State to which the untrue claim was made; or
 - (b) if, on the evidence available, the proceedings would not be justified.
